

1995 □ 4

EUROPEAN UNION (EU) TRADE WITH AFRICAN, CARIBBEAN AND PACIFIC COUNTRIES (ACP) -Results until December 1994-

PART I. EU TRADE BALANCE VIS-A-VIS THE ACP AND CLASS 2 COUNTRIES

EU TRADE BALANCE WITH ACP

I.1. The balance of EU trade with the ACP countries showed a fall of ECU 5.2 billion in 1994 compared with 1993. The sharp increase in EU imports (24.1%) from the ACP countries, combined with a substantial drop in EU exports to the ACP countries (-10.0%), led to a deterioration in the EU's trade balance with these countries, transforming an ECU 1.6 billion surplus for 1993 into a deficit of some ECU 3.6 billion for 1994.

I.2. EU exports to the ACP countries in 1994 amounted to 80.3% of EU imports from these countries. In the EU's non-oil trade with the ACP countries, exports were 4.1% higher than imports.

I.3. The EU's balance of trade with all developing countries (CLASS 2) in 1994 showed a surplus which was ECU 1.1 billion down on 1993, at ECU 23.8 billion. The non-oil surplus in 1994 was ECU 2.1 billion down on 1993, at ECU 55.5 billion.

I.4. Total EU exports to the CLASS 2 countries were 14.8% higher than its imports from these countries, while its non-oil exports to these countries in 1994 were 43.9% higher than imports.

PART II. EU IMPORTS FROM THE ACP AND CLASS 2 COUNTRIES

EU IMPORTS FROM ACP

II.1. EU imports from the ACP countries showed an increase of 24.1% in 1994 compared with 1993, at ECU 18.5 billion. Imports of agricultural (CN 01-24) and mineral (CN25-27) products accounted for 34.1% and 28.9%, respectively, of total EU imports from the ACP countries in 1994, representing rises of 21.9% and 16.5%, respectively, compared with the previous year.

II.2. EU imports from the CLASS 2 countries rose by 11.1% in 1994 compared with the previous year to reach ECU 160.6 billion. Only imports of mineral products (CN 25-27) showed a downward trend (-2.1%) in 1994 compared with 1993, slightly checking the upward movement of imports, since they accounted for 23.4% of total EU imports from the CLASS 2 countries. Imports of agricultural products (CN 01-24) accounted for 18% of total EU imports from these countries in 1994 and showed an 18.9% increase over the previous year.

II.3. There was a substantial increase of 96.0% in EU imports of pearls and metals (CN 71-83) from the ACP countries in 1994 compared with 1993, with these products accounting for 14.2% of total EU imports from these countries in the period under review. EU imports of these products from the CLASS 2 countries rose by 38.2% and accounted for 7.6% of total EU imports from these countries.

II.4. EU imports of machinery, mechanical appliances and transport equipment (CN 84-89) in 1994 declined by 7.4% from the ACP countries but rose by 15.9% from the CLASS 2 countries compared with 1993.

II.5. There were increases of 9.1% and 7.9%, respectively, in EU imports from both the ACP and CLASS 2 countries in the case of hides, textiles and footwear (CN 41-43) + (CN 50-67). In 1994 these products accounted for 6.8% and 16.3% of total EU imports from the ACP and CLASS 2 countries respectively.

PART III. EU EXPORTS TO THE ACP AND CLASS 2 COUNTRIES

EU EXPORTS TO ACP

III.1. EU exports to the ACP countries continued to show a downward trend in 1994 compared with 1993 and 1992 (-10.0% and -14.5% respectively) to stand at ECU 14.9 billion. On the other hand, during the same period EU exports to the CLASS 2 countries rose by 8.8% and 20.4% over 1993 and 1992, respectively, to stand at ECU 184.4 billion.

III.2. Machinery, mechanical appliances and transport equipment (CN 84-89) accounted for more than 44% of total EU exports to both the ACP and CLASS 2 countries. EU exports of these products in 1994 fell by 14.5% to the ACP countries but rose by 10.1% to the CLASS 2 countries compared with the previous year.

III.3. Chemical products (CN 28-40) accounted for 14% of total EU exports to both the ACP and CLASS 2 countries in 1994, showing a fall of 6.6% to the ACP countries and a rise of 11.0% to the CLASS 2 countries compared with the previous year.

III.4. Over the same period, EU exports of agricultural products (CN 01-24) fell by 6.9% to the ACP countries but rose by 6.0% to the CLASS 2 countries compared with the previous year, and accounted for 14.8% and 9% of total EU exports to the ACP and CLASS 2 countries respectively.

III.5. EU exports of metals and pearls (CN 71-83) to the ACP countries show the greatest fall in value (-15.9%) in 1994 compared with 1993. EU exports of hides, textiles and footwear (CN 41-43) + (CN 50-67) to the CLASS 2 countries show the greatest increase (14.8%) in 1994 compared with the previous year.

PART IV. EU-ACP TRADE BY PARTNER COUNTRIES

IV.1. The EU's largest deficits in 1994 were with the countries of West Africa (ECU 1.9 billion) and Central Africa (ECU 1.4 billion). In particular, the EU's balance of trade with the countries of West Africa showed a fall of ECU 2.9 billion in 1994 compared with 1993. This fall is due chiefly to the deficits recorded by the EU with Nigeria (ECU 1.8 billion) and the Ivory Coast (ECU 1.0 billion), which were ECU 1.55 billion and ECU 0.46 billion, respectively, higher than those recorded in the previous year.

IV.2. The surplus recorded by the EU with the countries of North and East Africa in the same period amounted

to ECU 0.7 billion, i.e. ECU 0.2 billion smaller than in 1993.

IV.3. In addition to Nigeria and the Ivory Coast, the EU recorded large deficits with the following ACP countries: Cameroon (ECU 0.69 billion), Zaire (ECU 0.45 billion), Namibia (ECU 0.35 billion), Congo (ECU 0.27 billion) and Papua-New Guinea (ECU 0.24 billion). Small surpluses were recorded with the following countries: the Bahamas (ECU 0.33 billion), Ethiopia (ECU 0.27 billion), Senegal (ECU 0.25 billion) and Liberia (ECU 0.23 billion) - all smaller than those recorded in the previous year.

PART V. EU-ACP TRADE BY MAIN PRODUCTS

V.1. The degree of concentration of EU imports from the ACP countries has increased slightly, since about 51% of total EU imports from these countries was accounted for by seven products in 1994, whereas it was eight products the previous year. The top ten and top twenty products account for 56.7% and 67.6%, respectively, of total EU imports from the ACP countries in 1994, which is an increase over the 54.4% and 65.3%, respectively, recorded in 1993.

V.2. Imports of crude petroleum oils accounted for 25.2% of total EU imports from the ACP countries in 1994. They increased by 18.1% in value and 28.9% in volume compared with 1993.

V.3. Imports of coffee account for 6.0% of total EU imports from the ACP countries, cocoa beans for 5.6%, unworked diamonds for 5.3%, raw cane sugar for 3.9%, unsorted diamonds for 2.9% and fresh bananas for 2.4%, these being the main products after pure oil exported by the ACP countries in 1994.

V.4. EU imports from the ACP countries of unworked diamonds show the greatest increase in value in 1994 compared with the previous year, followed by unsorted diamonds, other wood in the rough, unwrought aluminium, with major increases in both value and volume. The greatest falls by volume and value were recorded by bars of refined copper for wire, followed by unrefined copper, cathodes of refined copper and natural uranium, with large falls by volume and value in 1994 compared with the previous year.

V.5. More than 79.5% of the volume and value of total EU imports of tropical wood, cocoa beans, aluminium oxide and cane sugar came from ACP countries in 1994.

V.6. The following products suffered the greatest falls in prices in 1994: crude petroleum oils, stripped tobacco and natural uranium. However, the following products showed an increase in prices during the period under review: unroasted coffee, cocoa beans and tropical wood both in the rough and sawn.
